On December 14 2001, in the *Federal Register*, the Department of Labor announced two Solicitations for Grant Application (SGA).

The SGA, due by January 28, 2002, seeks applications from consortia and/or partnerships of public and private non-profit entities working in coordination with the One-Stop delivery system to augment the existing programs and services and ensure programmatic access and streamlined, seamless service delivery for people with disabilities.

The SGA, due by February 12, 2002, seeks applications for skills training programs for unemployed and employed workers. The grants are intended to be a long-term solution to domestic skill shortages in high skill and high technology occupations. Three California Workforce Investment Boards recently received a total of \$8.2 million for high skill and technology-training projects.
